PROFILE

Creative and detail-oriented aspiring Web Designer and Front-End Developer with practical experience in HTML, CSS, JavaScript, React, and Next.js. Skilled in using Figma to create visually appealing, responsive, and user-centric web interfaces. Passionate about delivering seamless digital experiences through clean code and thoughtful design. Eager to contribute to a collaborative team and grow in a dynamic, fast-paced tech environment.

PROJECTS

• LilaLodge Website (Freelance project)

Developed a frontend website using NestJS, with features like email booking, inquiry notifications, responsive design, selection room category and social media integration. I have gained real-world experience in client handling and requirement gathering.

• E-commerce web application

Built a user-friendly shoe shopping platform for men, women, and kids with browsing, cart, checkout, and login/logout features using Java, Servlets, JSP, JavaScript, HTML/CSS, and MySQL as a group project.

• Library System

Developed a modern web application using ReactJS, Tailwind CSS, and the Google Books API that allows users to search for books, view detailed information, and explore reading options in a user-friendly interface.

• Food Recipe site

Developed a responsive web application using ReactJS and the Spoonacular API that allows users to search recipes, view ingredients, follow cooking instructions. Focused on creating an intuitive, mobile-friendly user experience.
